

Columbia Basin ASQ Meetings and Site Visits – 2024

We strive to offer interesting and educational meetings on a regular basis for our members. These include virtual and in-person meetings and site visits/tours at local or nearby companies.

We usually take a couple of months off as a “summer break” since many folks will be traveling or engaged in other activities.

Members are also encouraged to participate in virtual meetings, webinars and other events being offered by other ASQ sections and divisions.

These events are publicized on our website, our [myASQ Community](#) and/or in our monthly newsletters. You can find additional ASQ events/offerings on the [ASQ Event Calendar](#).

If you would like to present at a future section meeting, or if you have ideas for topics, speakers, or site visits, please contact our Programs Chair or any of our leadership team members. We welcome your input!

Be sure to check back periodically for updates relative to future events.
