

WHY JOIN ASQ OR ASQE? VALUE.

ASQ serves a membership of quality professionals through educational advancement. As your career partner, ASQ membership benefits are designed to help meet your growing needs as a quality professional. Your individual ASQ Membership provides exclusive access to quality knowledge, solutions and resources to solve challenges, and skill development to advance your career. ASQ is committed to providing enhanced expertise, professional networks, tools, and solutions to help our members advance their products, services, and industries.

Your ASQ membership includes membership in a local section, which provides additional opportunities for learning, sharing ideas and resources, and networking with other quality professionals.

ASQExcellence (ASQE) was founded in January 2020 as a trade association to set the standard for quality-driven offerings and insights worldwide, empowering the organizations it serves to achieve excellence. The flagship of ASQE's offering includes ASQ certifications, which are powered by ASQE, and the Insights on Excellence (IOE) benchmarking tool. The IOE benchmarking tool and annual research allows ASQE organizational members the opportunity to make better informed business decisions and define a pathway to improving their performance year over year.

No matter which membership type you choose, Membership provides the resources you need to concentrate on product, service and experiential quality for powerful top-line and bottom-line results.
